SLOT-MACHINE GAMBLING.
An Ingenious Device Bailed by the Chicago Police.

CHICAGO, Ill., July 21.—One of the many devices known as the "nickel-in-the-slot machine" came in collision with the Police Department yesterday, and was knocked out in the first round. The machine was brought to the attention of the police by the parents of a boy who had lost the greater portion of his week's wages by dropping nickels in the slot of a machine on Madison street near Fifth avenue. A nickel falling into the slot caused the machine to pay out a large sum of money. The police officers were issued to have the machines removed, prosecution under the State law for maintaining gambling devices being the penalty for non-compliance. The machine that aroused the ire of the police was a gambling device generally made of brass or iron and a glass front. Behind the glass front are various grooves cut in the metal. The slot and main groove leads from the mouth of the slot and branches in various directions, and the nickel dropped in the slot, instead of falling into one of these grooves into the treasury beneath the machine, but if it rolls into certain ones the person who tosses the coin wins back his money, and if the nickel strikes a particular groove he gets 50 cents for his nickel. The chances of a nickel falling into the 50-cent groove are said by persons of experience to be one in ten.

Trunks and Traveling Bags.
You will find the largest assortment of trunks and satchels at lowest prices at trunk factory of M. Rosenfeld, 1009 Olive at street. Repairing done at short notice.

RYE MILLERS.
Conference Held in Albany to Improve Their Business.

ALBANY, N. Y., July 21.—A conference between representative rye millers of the East has been held here. The object of the meeting was to take action to better the condition of the milling business. The reports showed that not a single miller had made a dollar of profit in his business in the last six months. A basis of profit was discussed and it was finally adopted as the sense of the meeting that the millers might reasonably expect an average profit of 20 cents a barrel on the rye flour they make. It was also adopted as the sense of the meeting that the purpose of the rye millers for the time to time the prices to be paid for rye, the prices at which the product from milling rye shall be sold. Neither is it their purpose to attempt to prescribe methods of carrying on the business of rye milling, but to endeavor to make the business a profitable one in any way with a miller as to how he shall run his business, but the sole purpose is to endeavor to make the business a profitable one commensurate with its risks.

The fact that many millers were adulterating their products with wheat and other mixtures which lessened the price, came in for severe censure.

The Most Wholesome Ice Cream
Is made from Highland Evaporated Cream. Write for receipts to Helvelia Milk Condensing Co., Highland, Ill.

HEIR TO MILLIONS.

A Son Born to Mrs. J. Hooker Hammersley Yesterday.
NEWPORT, R. I., July 21.—Mrs. J. Hooker Hammersley became the mother yesterday of a son, who, if he lives long enough, will become the possessor of the millions whose income the Duchess of Marlborough is now enjoying. By his will, made on May 18, 1883, Louis C. Hammersley, the Duchess's first husband, left his entire estate in trust, the income to be paid to his widow during her life, and the principal to go to her death to the children of her husband, J. Hooker Hammersley. Should Mr. J. Hooker Hammersley continue a bachelor, as he was then, or should he marry without a child, the children then the whole was to be apportioned among charities to be selected by the testator's widow, the Duchess of Marlborough. Under this clause of Louis C. Hammersley's will, which was estimated at \$7,000,000, will manifestly belong to the baby born yesterday.

Disseminated Indians.
CHAMBERLAIN, S. D., July 21.—The large part, presumed to be a majority, of the Lower Brule Indians have abandoned their reservation and are now scattered all over the country. The country is without grain or wheat, crops are a total failure and the live stock industry has sustained a heavy loss, and it is stated that unless assistance is given the poor people starvation will result.

No Nobby walking comes for gentlemen.

Too Warm for Them.
SAN FRANCISCO, Cal., July 21.—Jack Allan and Mrs. Robert of Montreal, who have been at a fashionable family hotel here as J. S. Adams and wife of Quebec, have slipped away. Ever since the publication of the fact that they were the couple whose elopement scandalized the fashionable society of Montreal, they have kept closely to their rooms, and yesterday the pressure of notoriety became too heavy for them, taking pains to conceal their destination.

Don't work so hard with washing when Fairbank's Chloroform makes it easy, it's the best and cheapest.

Arkansas Hay Crop Short.
LITTLE ROCK, Ark., July 21.—Reports from nearly all the hay-producing counties in the state show that the crop has been greatly damaged by the recent excessive rains. Little Rock has for years been receiving its supply of hay from Eastern Arkansas, but during the coming season will have to look to the Missouri markets to supply the deficiency.

CHOLERA'S VICTIMS.

Official Statistics Published by the Russian Government.

OVER TWO HUNDRED DEATHS WITHIN A WEEK.

Rival Irish Factions Rioting in New Tipperary.—Reforms Proposed in Mexican Finances.—English Agriculture in a Depressed Condition.—Anarchist Plot Discovered.—General Foreign News.

ST. PETERSBURG, July 20.—The official cholera reports are published: July 18—Astrakhan, 195 cases, 123 deaths; Saratov, 106 cases; Tauritzin, 77 cases; Samara, 75 cases, 25 deaths; Kazan, 64 cases, 2 deaths; Baku, 22 cases, 18 deaths. July 17—Rostov, 64 cases, 1 death. July 14 to 17—Simbirsk, 16 new cases, 6 deaths.

The Roumanian Government has ordered a five days' quarantine on the Russian frontier to prevent the introduction of cholera. As a matter of fact the whole frontier is closed to traffic from Russia except at one station, and all the ports are closed against vessels arriving from Russian ports on the Danube.

It is officially stated that cholera has broken out in the Government of Kooban, on the east shore of the Sea of Azoff and the Black Sea. Six deaths have occurred from the disease in this government.

The Cologne Gazette says that the return to St. Petersburg of M. Vichnegradski, the Russian Finance Minister, is due to his favoring the holding of the Nijni Novgorod fair, while the Czar is strongly opposed to the holding of the fair. The paper adds that M. Vichnegradski will resign the Ministry of Finance, owing to ill health, and will be appointed to the economic department of the council of the Empire.

BRITISH POLITICS.
RIVAL IRISH FACTIONS RIOTING IN NEW TIPPERARY.

LONDON, July 21.—There was considerable rioting in New Tipperary, Ireland, last night, due to a collision between mobs of Redmondites and McCarthyites. The collision was followed by a series of desperate fights, many persons being injured on both sides. Several houses were wrecked.

The Times this morning heads a letter from a Leinster loyalist, published in its columns, "David and His Friends." This letter contains a telegram of congratulation from Chicago signed by Messrs. Darney, Sullivan and Corkery. The writer adds that Darney is a priest who was, and perhaps still is, an energetic member of the Clan-na-Gael. Sullivan, he says, was the head of that murderous assassination when it was most active in blowing up our public buildings, and Corkery is also a prominent member. It is not surprising, therefore, that the dynamite chiefs should congratulate their old associate in treason on his election. As their own circular avows, they desire to see the government of Ireland in the hands of their friends and brothers.

In reply to repeated applications Home Secretary Matthews has written a letter refusing to allow his visits to be made to the business of rye milling, but to endeavor to make the business a profitable one in any way with a miller as to how he shall run his business, but the sole purpose is to endeavor to make the business a profitable one commensurate with its risks.

MEXICAN MATTERS.
IMPORTANT FINANCIAL REFORMS TO BE INTRODUCED.

CITY OF MEXICO, July 21.—The new term of office of President Diaz, which begins in December, will in all probability be characterized by important financial reforms, including changes in administration, cutting off all expenses which are not absolutely necessary, and lowering customs duties, especially on raw material, with a view to encouraging the importation of goods in universal demand. The policy of the financial department hitherto has been to increase the tariff, and has been considered the easiest way to secure funds for meeting the growing expenses of the Government, but the new view has gradually come to be taken, and the tariff is being lowered, and the revenue is being increased by increasing the popular consumption.

depreciation in silver, which has imposed large expense on the Government in the matter of buying gold to pay foreign interest, has rendered caution necessary, and the new policy of reducing customs duties is now justified by the belief that the reform will tend to increase rather than diminish revenues. Reciprocity is regarded as a luxury not yet ready to be considered.

The Treasury Department is now an exceedingly efficient branch of the Government, and the example of hard work is set by the highest official. The working force will be naturally reduced by weeding out clerks whose services are demonstrated to be unnecessary.

GENERAL FOREIGN NEWS.
DEPRESSED CONDITION OF AGRICULTURE IN ENGLAND.—BRIEFS.

LONDON, July 21.—Earl Spencer, presiding at a meeting of the Northampton Agricultural Society, raised a storm of protests by remarking that a great deal of the wheat in the country was now in a more flourishing condition than it had been in a number of years. Mr. Howard of Bedford, responding for the judges, was applauded on declaring that with his fifty years' experience he could not remember when the condition of farmers was worse than at present.

ARBITRATING A DIFFERENCE.
BERNE, July 21.—The arbitrators appointed to hear and determine the claims arising from the seizure by Portugal of the Delagoa Bay Railway in East Africa, had fixed Friday next as the date for the opening of the hearing, but they have now postponed it until November, owing to the illness of the counsel for Portugal, whose defense has now been trusted to Advocate Sahli of this city.

THE ARIONITES' TOUR.
VIENNA, July 21.—The Arionites were tendered a farewell banquet at the "Tonhalle" in the Prater. Mr. Vanderstucken was presented with a gold conductor's baton. Tomorrow morning the Arionites will start for Munich. On Friday they will visit the great Germania monument in the Niederwald, and the occasion will be marked by a speech by Mr. Kattenmeyer.

THE HALIFAX HORROR.
HALIFAX, N. S., July 21.—Gen. Sir Ross received a cable dispatch from the Imperial authorities yesterday asking him to send a company of royal engineers to St. John's, Newfoundland. They are required there to blow down walls which are either dangerous or difficult to remove by ordinary means. The number of families burned out is 1,874, making 9,000 homeless people.

ANARCHIST PLOT.
PARIS, July 21.—The Figaro to-day says that the police have discovered an anarchist plot to blow up the Bourse and other public buildings. The paper adds that two of the conspirators have been arrested.

BRIEF CHRONICLES.
It is expected that the Russian Government will authorize the export of rye and bran on Aug. 1.

The Municipal Council of Paris has approved the proposed vote of 200,000 francs for

the expenses of Paris' representation at the Chicago World's Fair.

Rev. John Edwards, Rector at Fessenden, England, has fled to avoid arrest for acts of gross indecency.

The judgment of the Liverpool Board of Trade in the matter of the wreck of the City of Chicago is that the accident was due to careless navigation and that the certificate of Capt. Bedford of the City of Chicago should be suspended for nine months.

Don't waste your strength but use Fairbank's Chloroform Soap. It makes washing a pleasure instead of a worry.

DOWN TO BEDROCK.
Chicago Board of Trade Firms Are Losing.

CHICAGO, Ill., July 21.—A local paper says that not one firm in twenty on the Board of Trade is paying expenses. There has been a feeble sort of activity during the past three or four days consequent upon the slight rise in prices, but the flicker of energy merely served to accentuate the stagnation.

responsibility on the Board of Trade is thick enough to be palpable to the touch. There has been nothing like it in fifteen years.

The introduction of the measures of Mr. Hatch in the House and Mr. Washburne in the Senate are not likely to increase the tariff, but to be passed, but it is believed that it is likely to be passed before Congress takes a recess. The effect on speculation has been almost as disastrous as though the measure was already on the statute books and in active operation.

Commission merchants, in anticipation of hostile legislation, have been doing nothing to obtain business, and the rank and file of speculators have been standing idly aloof watching developments, and unconsciously contributing to the stagnation.

Only a few days ago, about \$1,000,000 represents the money invested in the business, exclusive of margins of customers. Nine-tenths of that money is idle capital at present. It is not earning a dollar for the owners or for any one else except the banks.

CHOLERA IN MICHIGAN.
Saginaw Develops a Fatal Sporadic Case of Asiatic Typhoid.

SAGINAW, Mich., July 21.—A man named James Cockburn died here Tuesday from Asiatic cholera. Monday morning Dr. James Campbell was called to 501 Howard street to attend Cockburn, who was said to be suffering from cholera morbus. The physician found that Cockburn's symptoms were nausea and severe cramps in his arms and legs. This, he thought, indicated something more dangerous than the ordinary cholera and became alarmed about the case. His fears were realized when Cockburn died. Before he died his body became purple. The reports of the man's death created considerable alarm in the neighborhood, the impression being that the case had been one of Asiatic cholera, as it was said to be a fatal case about five weeks ago. "The case was sporadic—that is, it was infectious, but is not the result of contagion," said Dr. Campbell. The health officer ordered that the body be at once buried privately and that all clothing of Cockburn's daughter and son be disinfected. "The people of the city should feel no alarm over the matter," the doctor said. "It is only by direct contact with the patient that the disease may be transmitted."

Married His Aunt.
DAYTON, O., July 21.—A strange wedding was celebrated here last evening. It was that of Maurice Yaker, a Russian, aged 21, and Mrs. Bertha Jacobs, a widow, aged 45.

Mrs. Jacobs has eight children by her first husband and is the aunt of the young man. Yaker's brother objected to the marriage and became demonstrative, but the doughty widow had him arrested and pinned for disturbing the peace and the wedding went on. The couple would never have been licensed to wed, but the clerk of the court did not interpret the Russian language correctly and did not understand that Yaker wanted to marry his aunt.

the tide of evil now sweeping
over the market.

The indifference and willing-

The indifference and willingness on the part of consumers to purchase adulterated articles because they are offered at a lower price, has become so general that many grocers find it difficult to handle pure products. If customers will understand that the cheap are always the adulterated, and will pay the fair cost of a genuine article, they will lend the only helping hand that will secure a radical reformation. It is a fact that there is no class of articles used in the preparation of food that is so commonly and systematically debased as flavoring extracts. The manufacturers of Dr. Price's Delicious Flavoring Extracts invoke the cooperation of consumers to stay the tide of evil now sweeping over the market.
